TABLE OF CONTENT

To be a congregation who studies and applies God’s infallible Word, by moving from follow-ship to the discipleship of Jesus Christ, while being guided by the Holy Spirit to assist unbelievers to join the Kingdom of God.

(Matt 28: 19-20)

INTRODUCTION

The Mount Zion Baptist Church brand is a visual expression and reflection of the church it represents. It is the identity, perception, and expectation of our church in the minds of the people within the Griffin community.

To be effective, our brand must be distinctive, memorable, and consistent. This brand is more than just a logo; it encompasses our specific color palette, typography, user interface design, and photography style. The Mount Zion brand is brought to life through our foundational visual guidelines and our digital presence on the web.

These guidelines are intended to serve as a starting point and framework for the development of our brand identity and website implementation, rather than a rigid set of solutions for every possibility. This system allows for creativity and flexibility, but care should always be taken to maintain the consistency and continuity that honors our mission online.

LOGO – CORRECT USAGE

LOGO – INCORRECT USAGE

Logo Mistakes

Please do not vary from the logo design that has been provided. Spacing, color, placement, font etc. are important and should remain consistent as the logo is translated to different projects. please do not stretch the logo, stack the logo, vary the colors provided, or apply unnecessary effects. Also any treatment that impedes the recognition or legibility of the logo should be avoided.

Visual Identity

Imagery plays a vital role in capturing and communicating the heart of Mount Zion Baptist Church. Our photography style should feel authentic, warm, and community-centered, reflecting the genuine joy and devotion of our ministry.

Authenticity over Staged: Avoid overly artificial or staged stock photos. Focus on candid, natural moments of worship, fellowship, and reflection that reflect our actual community.

Lighting & Tone: Utilize warm, natural, and inviting light to create a welcoming and spiritually uplifting atmosphere.

Logo Integration: When overlaying the Mount Zion logo on imagery, ensure high contrast and legibility, using the appropriate white or primary color version based on the background.
